

We invite our colleagues in the Food, Pharmaceutical, Life Science Industries to join us for

The Process and Benefits of Chlorine Dioxide Gas for Decontamination

A Free Workshop on Contamination Control

This educational workshop will describe and discuss the various methods of disinfection and sterilization available, so you can make informed decisions when reviewing your contamination control plan. Focus will be given to chlorine dioxide gas, which is at the forefront of contamination control and able to keep your facility cleaner and safer than ever before.

Topics covered at this workshop include:

- Comparison of decontamination technologies
 - Safety
 - Efficacy
 - Advantages
 - Disadvantages
- Exploration of various applications
- Case Studies
- Products
- Food Safety

CE Credits are available for the
AALAS, ABSA and IFT organizations

WHEN

Thursday, May 4, 2017
8:30AM - 2:00PM
(breakfast and lunch included)

WHERE

Courtyard Albany Thruway
1455 Washington Ave
Albany, NY 12206

REGISTRATION

It's free, with 3 ways to sign up!

- 1) Email workshop@clordisys.com with the names of all members of your party attending.
- 2) Call us at 908-236-4100
- 3) Sign up online at:
www.clordisys.com/workshops

WHO SHOULD ATTEND

This workshop is designed for anyone working with or in a critical environment where contamination control is essential; including QA/QC scientists, lab managers, microbiologists, validation scientists, architects and lab planners, production engineers, food safety professionals, EHS officers, and more
